ADITI MITTAL

EDUCATION

Indian School of Business | PGP | Intended Majors: IT, Strategy & Leadership | **GMAT: 770/800 (99.9th percentile)** **Apr'25 - Present**

- **Campus Finalists (Top 5)** of **EYP's Quest** for UPI-based nano-loan model addressing India's **₹9 lakh cr. credit gap**, targeting **26% profit margins** in 5 years
- **ideaForge Technologies, ELP** (Ongoing): **Benchmarked 6+ global competitors** across **technical metrics** to identify **differentiation levers** for ideaForge's DiB ecosystem
  - Identified high-value use cases and working on defining **market potential (TAM, SAM, SOM)** and authoring **PRD** using **JTBD & MoSCoW frameworks**
  - Evaluated **AI and digital levers** for product differentiation and growth by aligning insights with **go-to-market strategy** (GTM)
- **YLP admit (Top 3%)** and **50% merit scholar** conferred among 800 peers for outstanding academic record, leadership impact and transformative potential

BVDU, College of Engineering, Pune | B. Tech, Electronics & Telecommunication | CGPA: 9.02/10 **Jul'18 - Jul'22**

- Selected among **top 10 of 250 students** in Zensar Employability Skills Development Program, focused on **product-oriented problem solving**
  - Built a **Python-based Personal Expense Tracker**, automating financial insights and data visualization for end users
- Served as **President, Rotaract Club of Pune Yuva**; led **200+ members**, secured **₹50K+ in sponsorships**, and executed **10+ campus initiatives**
  - Successfully adapted club's flagship talent showcase event, **'JAM X1'**, for virtual audience in 2020, driving **250+ registrations** at club level

INTERNSHIP

Forsk Technologies | Data Analytics Intern **Jan'21 - Mar'21**

- Distilled customer data into **strategic insights** by **building dashboard** with **sentiment analysis** and different forms of **visualizations**
- Developed Python-based web scraper to gather **1K+ product reviews** from an e-commerce platform, enabling **scalable sentiment modeling**
- Trained **ML model** (**Python**, **scikit-learn**) to automatically flag customer reviews as positive or negative by human sentiment analysis
- Drove data-informed business strategy by **identifying critical performance patterns** and presenting them through visual narratives

WORK EXPERIENCE **2 years and 6 months**

Amdocs Development Center India | Software Engineer | Pune, Maharashtra **Sep'22 - Mar'25**

*Directed cross-functional alignment between **50+ stakeholders** to ensure end-to-end service delivery for **5M+ customers'** telecom account*

Key Achievements

- **Top Performer (1/50)** for consistently exceeding product quality, delivery, and stakeholder satisfaction key performance indicators (KPIs)
- **Fast-tracked promotion (1/200+)** to Senior Engineer based on product ownership, execution excellence, and innovation-driven impact
- **Top 10 finalist (out of 100+ global teams)** in Amdocs 'Skill OlympiQE Season 3' for developing product automation prototype enhancing release accuracy

Business Transformation and Strategic Delivery

- Translated business objectives into **AI-driven automation strategies and validation criteria**, ensuring feature compliance and minimizing change-request iterations
- Achieved **98% on-time delivery rate** by creating integrated project timelines and **aligning 50+ stakeholders** across **10+ global regions**
- Orchestrated the data preparation for **60+ test cycles**, **migrating datasets** & reducing data-related errors by **80%** improving overall impact
- Validated **100% of code and feature changes** by executing a rigorous, multi-stage testing process involving over **1,000+ service orders**
- Managed the **code deployment process** for **15+ major releases**, running and validating **200+ automated jobs** with a **99.9% success rate**
- Built **regression automation system** leveraging AI and data-driven insights saving **30+ engineering hours** weekly and improving release delivery
- Managed end-to-end lifecycle for **800+ defects**, partnering with development teams to decrease the **average bug resolution time by 25%**
- Ensured **99.9% accuracy** for post-execution PDF bills by implementing detailed validation, reducing customer-reported bill errors by **90%**
- Enhanced **client decision-making** by centralizing validation data into a **unified reporting dashboard**, improving review speed by **30%**
- Streamlined **Order-to-Cash workflows** through automation and validation, improving accuracy and reducing **reconciliation time**
- Owned the end-to-end **Software Testing Life Cycle** (STLC) for **15+ successful releases**, from initial strategy to final reporting
- Coordinated with internal teams and **major partners (Accenture, Tech Mahindra)** for **ongoing cloud migration** of **100+ applications**

Leadership And Stakeholder Management

- Led release communications as SPOC for **4-5 regions**, ensuring seamless alignment for **250+ stakeholders** via daily dashboards & calls
- Served as the **key client liaison** for complex deliveries, ensuring alignment across **10+ teams** through weekly status calls and MOMs
- Identified **50+ developer-accepted defects** per release, directly improving product quality and influencing the development lifecycle
- Spearheaded **final UAT demonstrations** of test results for clients and senior leadership to secure product release sign-off
- Managed **core team of 4-5** through successful delivery of multiple complex projects spanning **4+ global regions** and **release cycles**
- Owned **pre-release readiness phase** and validating all critical deliverables from cross-functional teams to ensure smooth project kickoffs
- Ensured the **on-time completion** of all project milestones by **strategically prioritizing** back and forth a **dynamic task backlog**

Firm Building Initiatives

- Accelerated **time-to-market** by **shortening release cycle by 60%** (from **quarterly to monthly**), enabling faster delivery of new features
- Achieved **35% reduction** in training time by increasing self-learning component by upgrading knowledge management system repository
- Decreased **stuck orders** by **10%** via auto-cancellation, by devising a **database-driven auto-request** feature to schedule ordering flows
- Redesigned workflows of newly acquired project post-takeover, implementing optimizations that **boosted timeline efficiency up to 60%**

EXTRA CURRICULARS AND PERSONAL INTERESTS

Social Impact

- Led volunteering experience for **150+ children** at Bandhan'25, managing from activity engagement to ensure massively successful event
- Mentored underprivileged children on the foundational importance of education as a key volunteer for Amdocs' CSR initiatives
- Led bi-annual community service events & activities at **'The Poona School and Home for the Blind'** for **200+ children** visually impaired

Events Management

- Organized first post-pandemic team bonding event **'KABALA'**, boosting morale & cohesion for **40+** team members as Back to office edition
- Led **'Futfive Season 3'** football tournament, coordinating a **2-day event** with **50 teams** and managing **registrations for 30+ teams** and overall logistics

Dance And Calligraphy

- Successfully completed **2-year certified training program** in **classical Kathak**, developing strong self-discipline and attention to detail
- Developed proficiency in three distinct calligraphy scripts **Gothic, Italic, and Curlz** through a disciplined **4-month** professional program
