Expression of Interest: Associate Manager, Product | Affinity Global

To,
Hiring Manager,
Ketan Sadashiv Shetty
Affinity Global

Subject: Expression of Interest for the Associate Manager, Product Role at Affinity Global

Dear Ketan Sadashiv Shetty,

I am writing to express my sincere interest in the Associate Manager, Product position at Affinity Global. Your mission of building resilient, high-performance solutions that streamline merchant experiences and power scalable financial ecosystems resonates deeply with my own product background and aspirations.

With experience spanning enterprise SaaS, payments, and API-driven product development, I have consistently delivered features that strengthen platform reliability and enhance merchant workflows. I have owned 10+ multi-region releases, refined merchant-facing API and webhook validation flows, improved reconciliation accuracy, and collaborated closely with engineering to design scalable automation frameworks that raised transaction-success consistency to 99.9%. My work has always centered on understanding user friction, optimizing onboarding touchpoints, and ensuring seamless adoption across partner ecosystems.

What excites me most about Affinity Global is its focus on building robust, integration-first payment products that simplify complexity for merchants worldwide. The opportunity to work on high-impact partner integrations, drive API-first product initiatives, and shape the reliability layer of Affinity's platform strongly aligns with my strengths in data-driven prioritization, cross-functional ownership, and product-led engineering collaboration.

I am eager to contribute to Affinity Global's vision by bringing my product execution experience, analytical rigor, and passion for solving merchant-centric problems at scale. I would welcome the opportunity to discuss how my background aligns with Affinity's roadmap and how I can add value to your team.

Thank you for your time and consideration. I look forward to the possibility of connecting.

Warm Regards,
Aditi Mittal

ADITI MITTAL

EDUCATION

Indian School of Business | PGP | Intended Majors: IT, Strategy & Leadership | **GMAT: 770/800 (99.9th percentile)** **Apr'25 - Present**

- **Campus Finalists (Top 5)** of **EYP's Quest** for UPI-based nano-loan model addressing India's **₹9 lakh cr. credit gap**, targeting **26% profit margins** in 5 years
- **ideaForge Technologies, ELP** (Ongoing): **Benchmarked 6+ global competitors** across **technical metrics** to identify **differentiation levers** for ideaForge's DiB ecosystem
  - Identified high-value use cases and working on defining **market potential (TAM, SAM, SOM)** and authoring **PRD** using **JTBD & MoSCoW frameworks**
- **YLP admit (Top 3%)** and **50% merit scholar** conferred among 800 peers for outstanding academic record, leadership impact and transformative potential

BVDU, College of Engineering, Pune | B. Tech, Electronics & Telecommunication | CGPA: 9.02/10 **Jul'18 - Jul'22**

- Selected among **top 10 of 250 students** in Zensar Employability Skills Development Program, focused on **product-oriented problem solving**
  - Built a Python-based activity tracker to capture task progress and generate insights, enhancing project coordination for the teammates
- Served as **President, Rotaract Club of Pune Yuva**; led **200+ members**, secured **₹50K+ in sponsorships**, and executed **10+ campus initiatives**
  - Successfully organized club's flagship talent showcase event, **'JAM X1'**, for virtual audience in 2020, driving **250+ registrations** at club level

WORK EXPERIENCE **2 years and 6 months**

Skills and Tools: *SQL, Python, Power BI, Figma, Excel, Jira, API Integration, SSO / SAML / OIDC, MFA, GenAI Automation, AI Prototyping*

Amdocs Development Center India | Software Engineer | Pune, Maharashtra **Sep'22 - Mar'25**

*Provided **end-to-end product delivery** & **customer billing systems** for a leading U.S. telecom provider for **5M+ users** with **50+ stakeholders***

Product Management and Development

- Owned **product execution** & **validation** for 10+ releases across **25+ applications** through automation, quality governance, stakeholder alignment
  - Evaluated feature performance by **automated testing pipeline** replicating **real-world production data**, improving **product & release reliability**
  - Led cross-functional feature integrations and automated deployments, achieving **99.9% release success rate** across 25+ applications
  - Identified & prioritized **50+ critical defects** by mitigating billing risks, improving **North Star Metrics**: *billing accuracy (95%), release reliability (99.9%)*
  - Achieved **95% accuracy** in customer billing outputs by validating **multi-regional feature** changes and consistency in service-specific use cases
  - Collaborated with product and platform teams to **reduce friction** in **authentication and access flows**, improving transaction completion and **user trust metrics**
  - Enabled **API-based validation and data reconciliation workflows**, improving platform reliability, traceability, and transaction success across multi-region clients
  - Implemented **enterprise-grade SSO/MFA (SAML/OIDC) flows** to support secure onboarding and access control for distributed merchant teams
- Developed scalable systems and automation frameworks enhancing **product velocity** and release reliability while aligning initiatives with **product roadmap**
  - Developed **GenAI-based automation** for test case generation & validation, increasing release velocity by **30%** ensuring faster feedback cycles
  - Instrumented **product performance metrics** and **dashboards** to monitor transaction latency, error trends and release reliability across platform modules
  - Designed **regression automation system** that cut manual QA effort by **90%**, saving **30+** engineering hours weekly & improving release delivery
  - Streamlined **data migration workflows** for **60+** test cycles, reducing **environment-related errors by 80%** and boosting **release predictability**

Process Optimization

- Improved **on-time delivery rate** from **90% to 98%** by creating integrated project timelines and driving cross-regional stakeholder alignment
  - Reduced training time by **35%**, by revamping the knowledge management system and freeing bandwidth for **faster product innovation**
  - Enhanced team efficiency and project predictability through **agile planning**, **knowledge enablement** and **stakeholder alignment**
  - Streamlined and prioritized agile backlogs to ensure **milestone adherence**, **accelerating sprint velocity** and **delivery predictability**

Leadership And Stakeholder Management

- **Led release communications** as single point of contact **(SPOC)** for 4–5 regions, ensuring **seamless alignment** between client & onshore teams
- Acted as **key client liaison** for high-impact product releases, coordinating across 10+ teams with **clear visibility by reports** and **review cadences**
- Delivered **final UAT demonstrations** to clients & senior leadership, translating technical insights into business product narratives for release approvals
- Managed core team of 4–5 members, driving multi-region product launches across **4+ global markets** with **structured ownership & accountability**
- Owned **pre-release readiness reviews**, validating **cross-functional deliverables** to ensure **flawless project initiation** and **go-live decision approvals**
- Partnered with collaborators **(Accenture, Tech Mahindra)** to sync **cloud migration efforts** for 100+ applications, aligning delivery with **product strategy**

Achievements

- **Top Performer (1/50)** for consistently exceeding product quality, delivery, and stakeholder satisfaction key performance indicators (KPIs)
- **Fast-tracked promotion (1/200+)** to Senior Engineer based on product ownership, execution excellence, and innovation-driven impact
- **Top 10 finalist (out of 100+ global teams)** in Amdocs 'Skill OlympiQE Season 3' for developing product automation prototype enhancing release accuracy

INTERNSHIP

Forsk Technologies | Data Analytics Intern **Jan'21 - Mar'21**

- Built **interactive analytics dashboard** integrating sentiment analysis and real-time user insights to identify **user pain points** and refine **positioning strategies**
- Developed **Python-based web scraper** to gather **1K+** e-commerce reviews, creating scalable dataset for downstream **sentiment modelling** and **feature-level insights**
- Trained **ML model** (**scikit-learn**) to automatically flag **customer reviews** as positive or negative by **supervised learning** and improving analysis speed
- Identified **critical customer behavior patterns** from large datasets and presented insights through visual narratives, guiding data-informed product decisions

EXTRA CURRICULARS AND PERSONAL INTERESTS

Social Impact

- **Bandhan'25 (Social Impact Event, ISB)**: Volunteered for **150+ NGO children**, managing from activity engagement to ensure successful event
- Mentored **10+ underprivileged children** on the foundational importance of education as a key volunteer for **Amdocs' CSR initiatives**
- Established bi-annual community events & activities at **'The Poona School and Home for the Blind'** for **200+ children** visually impaired

Events Management

- Organized first post-pandemic team bonding event **'KABALA'**, boosting morale & cohesion for **40+** team members as Back to office edition
- Led **'Futfive Season 3'** football tournament, coordinating a **2-day event** with **50 teams** and managing **registrations for 30+ teams** and overall logistics

Dance And Calligraphy

- Successfully completed **2-year certified training program** in **classical Kathak**, developing strong self-discipline and attention to detail
- Developed proficiency in three distinct calligraphy scripts **Gothic, Italic, and Curlz** through a disciplined **4-month** professional program
