Swiggy

PRODUCT MANAGEMENT TRAINEE

Location: Bangalore

Your Role

As a Product Management Trainee at Swiggy, these are the things that we will be expecting from you:

- 1st principle thinking; the ability to build products from scratch and the vision to scale it
- A very keen product sense exhibited through great decision making based on operations, business and technology understanding
- A very customer focussed approach to solving problem
- Deep interest in large data handling and mathematical modelling
- Data oriented approach, a key eye for numbers, market insights and an appetite for business/operations context and metrics
- Effective communication skills, the ability to articulate and evangelize product vision, strategy priority and 'Go to market plans' in a compelling manner
- Owner mentality; willingness to take initiatives, the accountability to dive closure, tenacity and grit
- The ability to collaborate with cross functional teams yet the assertiveness and influence to rally people around 'right' products

What You Bring

- building impactful and customer facing products at scale.
- Worked on complex cross functional products and went through the whole product journey of defining strategy to driving go to market
- Experience in developing/enhancing products leading to massive impacts in operations, fulfillment, catalog
- Past experience in supply chain products is a plus
